Whelen PAR46 LED Spotlight

Version   3.0

Credits
- Whelen LED spotlight modeled and textured by Cj24.

Notes
- Disable the base to pivot and rotate axes options to rotate the parts of the generic version based on their pre-set axes.
- Charger version of the spotlight is optimized for Peralta's 2018 Charger.
- LOD polygon count:
    - L0: 2085
    - L1: 823
    - L2: 350
    - L3: 216

Changelog
3.0:   - Higher texture resolution.
          - Added emissive.
          - Added diode texture behind lens.
2.1:   - Prevented glass from being tinted.
