

## 2020 Chevy Tahoe PPV

<https://discord.gg/2fRyQNSgeT>

### Lighting Template

While the model does come standard with red and blue lighting, the lighting template included in the 'Lighting, Vehicle, and Window Templates' folder allows for endless customization to the lighting on the vehicle. Using the provided lights that include; red, blue, amber, and white allows you to change the lighting to the way you like it.

#### Instructions:

- Find the 'Updated Lighting Template' file in the 'Lighting, Vehicle, and Window Templates' folder.
- Using the provided lights, customize the lighting to the way you like it.
- Once complete, using the siren numbers located next to, above, or under the light, locate the 'carcols.meta' file located in FiveM Ready File > tahoe > data.
- Open that file and find the siren number(s) that you need to replace.
- Find the line that contains, '<color value="XXXXXXXXXX"/>'.  
Example being, 'siren1's is located on Line 199.
- Replace the color value using the values below and what color you changed the light to.

RED: **0xFFFF0000**

BLUE: **0xFF0000FF**

AMBER: **0xFFFFA500**

WHITE: **0xFFFFFFFF**

**If you have any issues whatsoever changing the lights, please use the #support channel in my Discord, at the top of this document.**

## **Modkit Files**

This model also features multiple mod kit / tuning parts that allow for toggleable equipment and vehicle parts including but not limited to; radar equipment, mudflaps, and partitions. Most likely when spawning the model it will come bare-bones with nothing but the center console and laptop. You can toggle the other equipment by going to the Mod Menu and toggling the items. Please note that the names of the mod kits will not line up with the parts.

## **Liveries**

This model also includes three separate liveries which include a Los Santos Police Department livery merely based off the Mccandless Police Department, PA, a Blaine County Sheriff's Office livery based off the Mariposa County Sheriff's Office, California, and a San Andreas State Police livery based off the New Jersey State Police, NJ.

**All liveries were made by Nasty\_Splashy and his team at Nasty Designs.**

## **Extras**

This model features nine extras which include;

- Driver Side Spotlight Up
- Passenger Side Spotlight Up
- Driver Side Spotlight Down
- Passenger Side Spotlight Down
- Grille Lights
- Setina Push Bar
- Wraparound Extension
- Motorola Roof Antenna
- Light Bar Mounted ALPRs

## **Terms of Service**

- Please do not claim the model and / or liveries as your own.
  - Do not sell, or re-release the model and / or liveries.
  - Be smart, use common sense.

**If you notice any bugs, issues, or concerns with anything feel free to contact me via Discord; AbruptEnforcement#7816.**
