### Files included

- Vehicle files
- pictures
- readme.pdf

### Installation

Use SparkIV or OpenIV to import the police.wft, police.wtd, police2.wft and the police2.wtd from the Vehicle Files folder into GTAIV\pc\models\cdimages\vehicles.img.  
Copy the provided "ini" into the GTAIV\ELS folder and replace the "file" line value associated with the model(s) in the "\_SLOTCONTROL.ini" with our provided "ini" file and ensure the "status" value is on.

## Terms of use

You may:

- Replace or edit textures.
- Modify so-called "unlocked" models and redistribute your edited work provided that correct credits are given.
- Redistribute modified variants of modifications as long as correct credits and a link to the original download on [accuratestudio.com](http://accuratestudio.com) are provided.

You may not:

- Circumvent any protecting measures to edit models.
- Use any of the work uploaded on this website for your own financial gain.
