Installation

If possible, use OpenIV's mods folder instead of replacing original files! For more detailed installation instructions for vehicle mods, review [this guide](#).

Use OpenIV to add all files in the Vehicle Files folder to

`\update\x64\dlcpacks\patchday1ng\dlc.rpf\x64\levels\gta5\vehicles.rpf`.

To install the car in a different slot, change the names of the `.yft`, `.ytd` to the desired slot.
