Terms of use

You may modify this modification and redistribute your edited work provided that correct credits and a link to the original download are given.

Installation

Recommended – Automatic installation with LML (Lenny's Mod Loader)

Copy the mod's folder and its contents into your GTAV\lml folder.

Manual Installation

If possible, use OpenIV's mods folder instead of replacing original files!

Use OpenIV to add the vehshare.ytd folder to

`\update\x64\dlcpacks\patchday27ng\dlc.rpf\x64\levels\gta5\vehicles.rpf.`

If you already use a mod that modifies the vehshare.ytd, open it in OpenIV and replace the textures with those you want to use in the Optional Files\Loose Textures folder.

Notes

An optional version without expiration stickers is included.
